

### **Sissinghurst Cricket Club and ECB Photography, Filming & Social media broadcast Guidelines**

The ECB and Sissinghurst Cricket Club are keen to promote positive images of all members including children and young people playing cricket and are not preventing the use of photographic or videoing equipment.

Please remember that photographs are considered 'personal data' in terms of Data Protection. Depending on the circumstance, consent from either the child, adult, or both should be sought before capturing, sharing or publishing images where a child or young person can be identified, including posting on the club's website etc. In addition, as with all personal data you process, it should be processed in accordance with GDPR principles, and other relevant legislation and guidance.

Be aware that some people may use sporting events as an opportunity to take inappropriate photographs or film footage of children or young people. All clubs should be vigilant about this. These individuals could attend the local cricket club allowing people to presume they are related to a child involved. Any concerns during an event should be reported to a club official or event organiser, who should approach the individual concerned wherever possible. It is also possible that if a picture and name was placed in the local paper, the club website etc, the information could be used inappropriately. For this reason, the ECB guidance is that a child's picture and name should not appear together. There may be other reasons why individuals may not wish their child's photograph to be taken by someone they do not know personally, for example estranged parents looking to gain access to a child, young person, or families that have fled abusive situations. Parents/carers must ALWAYS be offered the opportunity to withhold consent for photographs /filming of their child.

The ECB wishes to ensure photography and video footage taken within cricket is done so appropriately, the guiding principles are:

- Photographs/images are not to be taken at matches or training without the prior permission of the member, parents/carers of a child or young person. This permission can be given by a coach of each team only after parental consent for this has been granted. The coach must arrange this prior to attending matches.
- If no consent has been given for a child or young person, then it is to be made known to the relevant person of the other team (e.g. coach/ team manager) so the appropriate person/s taking photographs for the other team is/are aware and can avoid taking photographs of that particular child or young person.
- The children or young people should be informed a person will be taking photographs.
- The children or young people should be informed that if they have concerns they can report these to the coach or team manager.
- Concerns regarding inappropriate, or intrusive, photography should be reported to the Club Welfare Officer and recorded in the same manner as any other child protection or safeguarding concern.

- It is recommended that all cricket clubs as well as tournament/festival/event organisers adhere to the appropriate guidelines relating to publishing of images. Use of images of children or young people (for example on the web, in the media or in league handbooks), including broadcast on social media platforms:
  - Ask for parental permission to use the child or young person's image and, wherever possible, show the image to the parents and child or young person in advance. This ensures that they are aware of the way the image will be used to represent cricket and the club.
  - Ask for the child or young person's permission to use their image. This ensures they are aware of the way the image is to be used to represent cricket and the club.
  - If the cricketer is named, avoid using their photograph.
    - If a photograph is used, avoid naming the child or young person.
  - Only use images of children or young people in appropriate kit, to reduce the risk of inappropriate use, and to provide positive images of the children.
  - Encourage the reporting of inappropriate use of images of children or young people.
  - Notification will be made ahead of all events where there is Live Streaming and a request for individual player consent.

If you are concerned, report your concerns to the County or Club Welfare Officer.

Using video as a coaching aid:

There is no intention on the part of the ECB or Sissinghurst Cricket Club to prevent club coaches using video equipment as a legitimate coaching aid. However, players and parents/carers should be aware that this is part of the coaching programme, and material taken in connection with coaching, must be stored securely and deleted or destroyed when a parent requests this, or when the material is no longer needed. The parents/carers and children or young people must provide written consent for the use of photography and video analysis.
